

MOORLANDS SCHOOL

AIMS

Moorlands School was founded in 1898 and is dedicated to providing a first class education for girls and boys aged 2 to 11 years in a warm, friendly environment. The school is sat in beautiful grounds providing all the outdoor space the children need to play in a safe and secure environment. The school boasts of fantastic wrap-around care facilities, and excellent teaching standards.

Alongside an academically rigorous curriculum, Moorlands recognises that children have different interests and strengths and, as such, aims to provide opportunities for all pupils, whether they enjoy academic life, sport, music, drama or art. Whilst our expectations are high, Moorlands is still very much a school where children can be children.

This approach, with the dedication of a talented staff, has led to children from Moorlands being successfully accepted to their choice of senior schools. We take pride in our track record of successfully preparing our pupils for entry not only to the regions but the UK's leading independent day and boarding schools. Many of our pupils excel in entrance examinations and receive scholarships to their chosen destinations.

Moorlands aims are:

- to provide a learning environment which fosters happiness, warmth, confidence, independence and a sense of purpose and direction;
- to equip our pupils with skills, values and attitudes which allow them to fulfil their potential in school life and to play a full part in the communities and wider world to which they belong;
- to enable our pupils to gain maximum advantage from a broad curriculum delivered by caring staff within excellent facilities;
- to expose every member of the school community to high standards of courtesy, tolerance, honesty, responsibility and fairness.
- to give our pupils the confidence to be '*Intrepide*': to take risks, to try something new, to be open to failure and to learn from the experience.
